STATINTL

MEMORANDUM FOR: Chief, Support Staff, ICS

FROM : [REDACTED]
Assistant General Counsel

SUBJECT : Official Transportation Provided to the
Deputy to the DCI for Resource Management

REFERENCE : Proposed OGC Opinion for DDA, Subj:
Transportation Between Home and Office
for D/DCI/IC

STATINTL

1. You have requested our legal opinion regarding the authority to provide home-to-work transportation utilizing a Government vehicle and driver for [REDACTED], Deputy to the DCI for Resource Management. You assert that such transportation is essential to enable [REDACTED] to carry out his official duties. This is so in that [REDACTED] performs these duties both in the Intelligence Community Staff building at [REDACTED], and at CIA Headquarters. To function effectively he must regularly utilize classified materials at his home prior to and following normal office hours and must be able to transport this material securely from his home in Northwest Washington to both of his offices. Agency regulations require that highly classified materials such as those utilized by [REDACTED] be transported only in the presence of two cleared individuals.

2. You advise that absent home-to-work Government transportation, it would be necessary for Agency couriers to pick up and deliver classified materials to and from [REDACTED] home and offices, greatly reducing his effectiveness.

3. In reference, this Office examined existing statutes which permit home-to-work transportation in official Government vehicles to determine if such transportation could be provided to the D/DCI/IC. [REDACTED]
